MEMORANDUM of UNDERSTANDING

between

National Nuclear Energy Agency (BATAN) – Indonesia

and

Mines-Nantes/ SUBATECH (Nantes, France)

on

Academic and Research collaboration

This Memorandum of Understanding (hereinafter referred to as MOU) outlines the basis for collaboration in the areas of teaching and research between National Nuclear Energy Agency –BATAN (hereinafter referred to as BATAN) and “Ecole Nationale Supérieure des Mines de Nantes” with her SUBATECH Research Center, a research laboratory co-operated by the Ecole des Mines de Nantes, the Institut National de Physique Nucléaire et de Physique des Particules (IN2P3) of CNRS, and the Université de Nantes, (hereinafter referred to as Mines-Nantes), a member of the Institute Mines-Telecom. Hereinafter individually referred as a Party and collectively referred to as the Parties

The principles that guide this collaboration and partnership between the Parties are mutual respect for academic integrity, commitment to student success, and the broadening of international academic networks to support excellence in teaching and research.

1. Participating Bodies

The participating bodies will be **BATAN** and **Mines-Nantes**

The following liaison officers will be primary point of contact and persons responsible for the collaborative discussions:

For BATAN
Dr. Sudi Aryanto, Director of Training Center

For Mines-Nantes
Dr Annya Réquillé, Dean of International Graduate School

2. Types of Collaborative Activities

The collaboration on academic and research activities will allow:

- Exchange information pertaining to developments in teaching, and research
- Promote institutional exchanges by inviting faculty and staff of the partner institution to participate in a variety of teaching and/or research activities and professional development
- Invite academic representatives of the other institution, when appropriate, to participate in symposia, conferences, short courses and meetings on research issues
- Cooperate in joint research programs in areas of mutual interest
- Development of academic programs
- Receive students for Master and PhD's program
- Students Mobility for a period of study or research at the graduate level

The Parties agree that in their discussions to establish joint opportunities, they will negotiate in good faith program-specific collaboration.

The details of specific collaborative activities in each area of academic or research will be defined in specific arrangement within the framework of this MOU.

3. Intellectual Property

Each party retains all right, title and interest to its own work and any intellectual property rights therein. This MOU does not give either party any license of use or right over the intellectual property of the other party. The use of trademarks and/or denominations representative of either party is strictly prohibited without the owner's prior written consent.

4. Financing

Any financial arrangement to pursue any of the above activities (Article 2) are to be negotiated for each specific case.

5. Entry into force, duration and termination

This MOU will remain in force for a period of five (5) years subject to the availability of funds. Any amendment and/or modification of this MOU will require written approval by

each party. After the initial five-year period, this MOU will be renewed automatically unless written notice of termination is given.

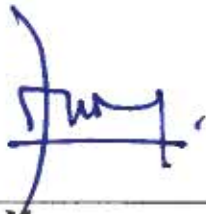

Either party reserves the right to terminate this MOU upon six months' written notice to the other party. In this case, the program(s) or the activity(ies) already approved by the Parties shall be allowed to be completed under the conditions of this MOU.

IN WITNESS WHEREOF, the duly authorized representative of the Parties have signed this MOU.

Signed in Serpong-Indonesia on 12 October 2015 in the English language, in the original copies, both being equality valid.

On behalf of BATAN

On behalf of Mines-Nantes/SUBATECH
